## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 28 July 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

- 4) ☐ Interview Summary (PTO-413)  
Paper No(s)/Mail Date. \_\_\_\_\_.
- 5) ☐ Notice of Informal Patent Application
- 6) ☐ Other: \_\_\_\_\_.

### **DETAILED ACTION**

1. The amendment filed on 7/28/06 has been entered. Applicants have amended the specification and claims 1-3.

#### ***Specification***

2. The amended specification is approved. The objections to the specification are withdrawn.

#### ***Specification***

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakamura et al. (US 20020081905).

**Regarding claim 1**, as shown in figure 2, Nakamura discloses a bus bar structure plate 4 (a bus bar body, paragraph 24), comprising:

(a) A plurality of bus bars 5/6 (typically 5a-5d/6a-6d; paragraph 26) arranged on one plane (as shown in the figure) in an arrangement forming an electric power circuit (electrical junction box, see abstract),

(b) the bus bars being connected to each other to form an integrated whole shape (as shown in the figure), and

(c) at least one connecting parts 9 (typically 9a-9j; trimmer joint portions, paragraph 24), having a connecting portion (the portion connecting a bus bar), connecting at least one pair of adjacent bus bars (clearly shown in the figure),

(d) wherein the bus bar structure plate has the integrated whole shape in which a plurality of electric power circuits (see figure 3) are formed by selecting at least one connecting part (see paragraph 27 and figures 4-7) at which a pair of adjacent bus bars are separated from each other (cutting step).

**Regarding claim 2**, as shown in figures 2-3, Nakamura further disclose:

(a) A mounting position (no reference number, positions for relay switches 2A-2D, paragraph 25) for mounting a plurality of switching elements 2A-2D (relay switches) intervening in the electric power circuit is set at predetermined positions (an exemplary circuit is shown in figure 4), and the integrated whole shape is set such that a circuit in which the plurality of switching elements to be mounted in the mounting position are arranged in parallel (see illustrated circuit in figure 3), and a circuit in which a plurality of switching elements to be mounted in the mounting portion are arranged in series (see illustrated circuit in figure 8) are selectively formed by selecting at least one position (cutting positions, see paragraph 27) at which a pair of adjacent bus bars are separated from each other (also see illustrated circuits in figure 4).

***Allowable Subject Matter***

5. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Reasons for Allowance***

6. The following is an examiner's statement of reasons for allowance: The best prior art of record, Nakamura et al. (US 20020081905) and Onizuka et al. (US 6472772) taken alone or in combination, fail to teach or fairly suggest that the connecting part positioned outside the substrate adhesion region in a plan view as claimed by the applicant in claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

7. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2841

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa C. Nguyen whose telephone number is 571-272-8293. The examiner can normally be reached on M-F.
